TREASON AND DEATH.

How a Judge Would, if Possible, Punish Election Frauds.

KANSAS CITY, Mo., Nov. 19 .- The argument on the application made by W. T. Jamison for an injunction to prevent J. H. Bremmermann from accepting a commission as prosecuting attorney of Jackson county, was heard before Judge Henry in the Circuit Court to-day. The grounds for asking such action by the court are that Bremmermann's certificate was issued on the strength of forgery of the election returns. Judge Henry refused to grant the injunction. The proceeding, he said, was a novel one. The court was asked to decide which of the two contestants should be the plaintiff in a contest. No court had ever gone so far as that. He suggested that the plaintiffs bring mandamus proceedings to compel the canvassers to re-canvass the vote. In the course of his opinion, Judge Henry said: "I will go as far as any man to prevent or punish fraud. If it were under my control I would make ballot-box stuffing and forging election re-turns treason against the State and pun-ishable by death."

Many Contests in Nebraska. LINCOLN, Neb., Nov. 19 .- The Republic-

ans will demand a recount of votes by the Legislature. No notice of contest has yet been filed with the Secretary of State, but a prominent Republican State official says that such notice will undoubtedly be filed within the limit, which expires on the 26th inst. He said that a legislative committee, consisting of two Populists, two Democrats and three Republicans, would be asked for to proceed with a recount of the ballots for the purpose of quieting title and removing all doubts of the election of either candidate for Governor. It will be necessary to serve notice on Judge Holcomb at the same time. At independent headquarters matters are being put in shape by attorneys Bryan and Lees and others to serve notice of contest on all the Republican candidates for State offices immediately following the contest for Governor. Judge Holcomb is expected to arrive from Broken Bow Wednesday and remain here until the Legislature

ANOTHER MONTE CARLO SEASON WIDE OPEN IN LAKE COUNTY.

Evidence of Glaring Democratic Frauds in Tipton County-News from Indiana's Four Corners.

Special to the Indianapolis Journal. HAMMOND, Ind., Nov. 19.-This was the third day of the winter meeting of the Roby Fair Association. Three thousand men and women braved the cold breezes from off the lake in order to satisfy their appetite for gambling. The twenty-two local books did a good businss, and succeeded in carrying away a goodly portion of the money. No attempt has been made by the local authorities to stop the pool selling, and it is the opinion of many that no action will be taken, at least not by the city authorities. Fourteen special police are on duty there, and had there been any intention to interfere with the meeting something would have been done ere this.

By no means is pool selling the only kind of gambling going on at Roby. Just outside the gates are no less than three places where may be found any kind of a game, from the seductive poker to the less gentlemanly, but none the less attrative game of "craps." At the track gates are stationed a number of "cappers," who take no pains to conceal their calling, but meet everybody with the same story that everything is running wide open at the gambling dens. In one place this evening could be found a crowd of people stationed around a crap table where a lively game was going on. In the same room two roulette tables were doing a good business, while in a room in the rear was a poker game with a full quota of players. At another place fare and roulette were the only games in operation. Sheriff Hayes said to-day that ie had received no word from the Governor other than the dispatch last Thursday night, asking if the track was to be opened and that he answered it immediately; that he had not yet had time to look into the matter owing to the large amount of other work which had been turned over to him by his predecessor. He has not visited the track during the present meeting, and said he would not do so unless called on to act officially. The grand jury will probably not convene before next Monday, and no action is looked for before that time.

LOOKS LIKE RANK FRAUD.

People Believe Tipton County Democrats Stole Every Office They Got. Special to the Indianapolis Journal.

TIPTON, Ind., Nov. 19.-Late Saturday evening notice of contest of election was filed with the proper officers by the defeated Republican candidates for county auditor, surveyor, assessor, coroner and one commissioner. The defeated Democratic candidates filed against the clerk, sheriff, treasurer and one commissioner. The pluralities are so close that no one is satisfied. The entire election machinery is in the hands of the Democrats. Every inspector was a Democrat, No Republican was permitted to witness the official count and it is rumored to-day that the present incumbents will refuse to surrender the offices to their successors. The certificates were taken to the Governor this morning by a Democrat and from the fact that this is an unusual proceeding there is considerable speculation as to its meaning. There appears to be a great deal of trouble in store for all the officers elect. Public sentiment is being wrought up to a high pitch and the course of the Democrats is severely condemned. A political sensation may be expected from this county at any time.

Miller, who was nominated for circuit judge of the counties of Decatur and Rush on the eight hundred and fourteenth ballot and elected by 1,411 piurality, assumed the duties of his office to-day, and set up the apples to those in the court room. His targe plurality is without a precedent in this circuit. Judge Ewing, his Democratic opponent, was confident of his own election, out the election returns staggered him. Judge Miller is a jurist of fine abilities and great personal popularity.

"As Fine Corn as He Ever Seen." Special to the Indianapolis Journal.

COLUMBUS, Ind., Nov. 19 .- Goodson Mc-Calip, an old Bartholomew county citizen. who went to Nebraska eight years ago, and who prospered for a number of years thereafter, has returned to this county and tells some thrilling hard-luck stories. Mr. Mc-Cally owns one of the best farms near North Loope, Neb. Last year he did not get a bushel of grain, although he had sixty acres of "as fine corn as he ever seen" grow. On the 26th day of July a hot wind visited that section, and eighteen Inches of the tops of every stalk of corn in his field on the following morning had turned white. Not an ear of corn was raised on the sixty acres. His small grain headed out when it was but eighteen inches high and none of could be saved. He stated that there had been no rain in

his locality for nineteen months, and during that time but one snow storm of any consequence had come along. Mr. McCalip will return to his farm next year should spring rains set in, but if they do not he will not go back.

R. T. McDonald in Control.

Special to the Indianapolis Journal. FORT WAYNE, Ind., Nov. 19 .- A telegram from R. T. McDonald, at New York, states that he has just secured absolute control of the Fort Wayne electric-light works, has severed his connection with the General Electric Company, and will devote his energies hereafter to the building up in Fort Wayne of a great institution for the manufacture of machinery and appliances whose patterns and patents are owned by the local concern. This is good news to hundreds of employes of the establishment here as well as to the people generally, for it means the end of litigation and the beginning of a new era of prosperity in an institution that has been hampered in its progress by manipulation of the managers of the Eastern company, whose interests have never been in the line of advanc-

His Findings as Referee Overturned

by the New York Supreme Court.

NEW YORK, Nov. 19.-The findings of Grover Cleveland as referee in a sui brought by James Sexton in 1888 against the Manhattan Elevated railroad were overturned by a decision of the Supreme Court, special term, to-day. The referee awarded the complainant \$2,000 for damages to the fee in certain property and \$1,-200 for loss of rentals. Damage to the rentals previous to the beginning of the action he found to be \$719.40, but the referee would not render a judgment for it. The case was appealed and the Court of Appeals reversed Mr. Cleveland's decision because, as referee, he refused to find that the damages in and of themselves, aside from any consequential damages, were of nominal value. To-day in the new trial Justice Patterson awarded to Sexton a judgment of \$2,000 as damages to the easements of the property and \$150 a year for the loss of rentals due to the maintenance of the railroad in front of the premises.

OBITUARY.

Joseph Lewis, English Machinist and Inventor, Who Came to America. KANSAS CITY, Mo., Nov. 19.—Joseph Lewis, inventor, died at the home of his the Cookson iron works.

At the shop of Lewis & Sons, in Manchester, England, of which firm the deceased was junior member, the famous locomotive engine of George Stephenson was built in 1829. This engine was built to compete in a test of speed with many others for a prize of £500 offered by the managers of the Stockton & Darlington railway, and it won the prize by breaking all records several hours. In Mr. Lewis's shop at Manchester the machinery for John Ericcson's monitor was made. In 1868 Mr. Lewis came to America and settled at Chicago. He invented a new principle of valve motion for locomotive and other engines shortly after his arrival in this country, which is now in general use.

CONEY ISLAND, N. Y., Nov. 19 .- The

fact that Jack McAuliffe was to appear tonight, this time after a careful preparation, against a representative of the Quaker City, attracted a crowd of 3,500 people to the Atlantic Athletic Club's arena here. Inspector McKelvey and Captain Clayton, with forty of the Brooklyn police, were on hand at 8 o'clock to prevent a recurrence of "knockouts."

There were two preliminary bouts and then a long delay before the contest of the evening was called. Both men looked fit to fight for their lives when they entered the ring. They weighed in at 138 pounds. McAuliffe was seconded by Jimmy Nelson, Con McAuliffe and Jack Sheehan. Zeigler's backers were Charley White, of New York, and Hugh Kennedy and Billy Hamilton, of Philadelphia. In the first round Zeigler proceeded to mix matters, and the Philadelphian's stock went up a good many points. Honors were easy at

McAuliffe led off in the second with his left, and the "Quaker" clinched. McAuliffe swung wide and got a left-hand swing from Zeigler in return. McAuliffe led with his right and landed, Ziegler countering lightly. Zeigler led with the right, but fell short. Rapid exchanges followed. Zeigler landed with the right and followed it with a body blow. McAuliffe then landed a stinger on the face and the round ended in a clinch. Something seemed to go wrong with Mc Auliffe's hand in this round.

The third round opened up fiercely, and, while McAuliffe punched his man frequently, Ziegler continued to mix matters and honors were even. If anything the Phila-delphian had a shade the better of it. Fighting became so fierce that the police interfered and stopped further proceedings. The referee declared the fight a draw. After the contestants left the ring it was discovered that McAuliffe had broken two small bones in his left wrist. This, it was claimed was done in the second round, and it was probably when McAuliffe landed a heavy blow on the Philadelphian's shoulder.

Some of his friends familiar with his plans say he will file an in-junction restraining the officers from con-tinuing to control the property of the Knights of Labor. The miners were unseated by a vote of 34 to 27, which shows that Sovereign and Hayes will be re-elect ed. The election will probably take place

Tav lor, of this city, chairman of the commi tee of millers which met in Chicago last week, denies that the action taken with a view of limiting the output of flour is in the nature of a trust proceeding. COMITY OF COLLEGES

THE FOOTBALL ROW IS THREATEN-ING IT WITH A BACKSET.

President Smart, of Purdue, Sets Forth His Opinion on the Matter Now in Dispute.

The football managers of DePauw and Purdue are in the city arranging for Thanksgiving day. Both men contend that they have been misrepresented by both the Artillery directors and the Butler management concerning the so-called deal referred to in the Evening News. Their version of the matter is given in what follows:

Early in October Manager Swan, of the

Artillery team, told Manager Church, of

DePauw, that the Artillery intended play-

ing a game in this city on Thanksgiving,

but if DePauw would play with them on Oct. 27 the Artillery would leave the day free. DePauw played the game on the written promise of Manager Swan that the Artillery would engage in no game in Indianapolis on Thanksgiving day. After De Pauw lost to Butler, both DePauw and Purdue were approached by the Artillery with the proposition that DePauw withdraw in favor of the Artillery for a money consideration. The proposition was rejected, and the managers continued their arrangements for the game here. The De Pauw manager, however, concluded that it might be an advantageous offer to him and after many refusals concluded to consider a proposition. Manager Kennon was summoned to the office of J. B. Curtis, who stated the case. Mr. Church stated a money consideration, and Mr. Kennon said that only one proposition could be considered at all, namely, that the Artillery step into DePauw's place and fulfill her part of the contract under the association rules. Action was postponed by all parties until the next day. Mr. Kennon returned home and found that the Purdue faculty had put a quietus on the matter, deciding that their team should not play the Artillery under any terms. Mr. Church returned to Greencastle and found his association indignant over the proposition. He returned by the first train and, going to Captain Curtis's office, in person recalled his offer at once. Both managers had found that no such action would be sustained at home. After Mr. Church's visit Captain Curtis immediately wired Purdue that he had arranged a game with Butler This was two days before the Butler facul-ty consented. On last Friday Captain Curtis met Manager Church in Greencastle and extended him a money offer to withdraw the game for Indianapolis and compel Purdue to play elsewhere. The offer was re-jected. The managers hold that the Artillery has taken the initiative in every in-stance and has been guilty of double dealing. Each of the colleges extended the courtesies of the season to them, in a game, although opposed to college policy, and they expected courteous treatment at least Manager Church is still angry over th

fact that the baggage of the DePauw tea was held at the Grand Hotel for the expense account, which, he says, the Artille manager promised to pay. It is needless say that there is no good feeling between the teams. A member of the Purdue faculty visited the city yesterday and stated that President Smart had defined the position upon which the Purdue faculty that Butler should not interfere, as follows: "Purdue's position is this: An agreement was entered into by the State College Association by which the first and second football teams of any year were to play in Indianapolis on Thanksgiving day in the succeeding year. Butler was a party to this agreement, and we do not believe that she can disregard her obligations in this respect. But whether she does or not is a matter for which she must answer to the public and to the association, and not to Purdue alone. Purdue and DePauw both feel that under the circumstances it would be a breach of good faith and cowardly, as well, not to play in Indianapolis. We are bound to do so by the rules of the association; we are bound to do so by our agree-ment with the public. Indianapolis has shown itself in favor of honest and pure college athletics. Purdue has tried to put up a good game in Indianapolis, and has done what she could to bring credit to the State by victories over foreign teams on many a well-fought field. She believes that the whole State of Indiana appreciates her work in this regard, and that the game or Thanksgiving day; which she feels bound in honor to play, will be liberally patronized."

Joseph Dieterich, president of the Indianapolis Gas Company, who has been in this city for several days, went yesterday to Wabash to examine the natural-gas company there with a view to purchasing it for his gas syndicate, composed of wealthy men of New York. Rebuked Mr. Collier. William Hartman was yesterday fined \$10 and cost for selling liquor on Sunday. The similar charge against Charles Shafer and John Lenehan were set for to-day. Monroe Lee was fined \$10 and costs for his offense against Sunday laws.

Superintendent Powell was much displeased yesterday at the fine assessed against Hartman and Lee. He said these were troublesome offenders, and he wanted an example made of them. The attorney representing the State was Mr. Collier, who was just retiring from office. The superintendent was out of the court room when the cases were called, and when he returned and found them settled, he spoke very sharply to Collier for not informing the acting judge that Hartman had been in

court before for violating the liquor law.

Albert Lieber's Appeal. A circular letter from Albert Lieber to the saloon keepers appeals to them to stand by each other in the Hignight case, in which liberal views as to the liquor business are involved. This case is pending in Judge Harvey's court on a ruling requiring Mayor Denny to answer. The letter promises the support of the brewing interest to any liberal legislation that is

proposed.

CHICAGO, June, 1894. Mason & Hamlin Gentlemen-I have never felt so confident while playing in concerts as since have had the opportunity to have a Mason & Hamlin Grand under my hands. Since first coming to America, and in all my European tours, I have never played upon a plano that responded so promptly to my wishes. The tone is liquid and carrying the equalness of sound is perfect, and any effort I ask this beautiful instrument whether legato, staccato or delicacy of tone, it responds faithfully. I can assure you that I have never known any piano that could stand such severe tests as playing in several concerts upon the same instrument and keep in tune, notwithstand ing moving around and change in temperature. You have solved the problem that others have long tried in vain, and I call

the ideal plano. Faithfully yours, MAL INUS SIEVEKING Helene Mora, the great baritone singer, is pleasing the patrons of the Empire this
